

## **REMARKS**

This responds to the office action mailed on June 25, 2007. Claims 1, 8 and 11 are amended, and claims 3 and 10 are cancelled. New drawings 6-8 are filed herewith. The specification has been amended to make reference to new drawings 6-8. Reconsideration is respectfully requested in light of these amendments and the following remarks.

### ***Drawing Objections***

The office action objects to the drawings as failing to illustrate a method as described in claims 8-10. Accordingly, revised drawings are submitted herewith to add new drawings 6-8. These new drawings correspond with originally filed method claims 8-10, and thus no new matter is added.

### ***Amendment to the Specification***

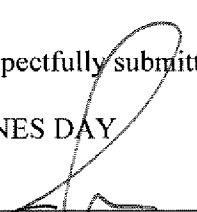

The Specification has been amended to make reference to new drawings 6-8. The drawings are supported by originally file claims 8-10 and thus no new matter is added.

### ***Allowable Subject Matter***

Claims 3 and 10 are objected to as being dependent on rejected base claims, but are otherwise allowable. Accordingly, independent claim 1 has been amended to include the limitations of allowable claim 3 and independent claim 8 has been amended to include the limitations of allowable claim 10. Similarly, independent claim 11 has been amended to include the limitations of allowable claim 3. These independent claims, and their respective dependent claims, are thus in condition for allowance.

Respectfully submitted,

JONES DAY
